1. What are cookies?

Cookies are small text files placed on your device (computer, tablet or phone) when you visit a website. They are widely used to make websites work, to remember your preferences, and to provide information to the site owners about how the website is used.

Cookies can be "first-party" (set by us) or "third-party" (set by other services we use, such as analytics providers). They can be "session" cookies (deleted when you close your browser) or "persistent" cookies (stored for a set period).

2. Legal framework and consent

In accordance with the ePrivacy Directive, transposed in Romania by Law no. 506/2004, and with the GDPR, we only place non-essential cookies on your device **with your prior consent**, given through the cookie banner displayed on your first visit.

Strictly necessary cookies do not require consent, as they are essential for the Website to function.

3. Cookies we use

These are essential for the Website to work properly — for example, cookies that manage session state, security, or your cookie consent preferences. They cannot be disabled through the banner.
